1. General technical data

General technical data	Engine	PERKINS 1103A-33TG1
	Alternator	STAMFORD S1L2-K
	Type of execution	G2
	Frequency	50Hz
	Voltage	400/230V
	Control panel	DSE 6020 MKII
	Fuel tank (l)	95
	Sound level-Lp(A) (dB(A)@7m)	N/A (Indoor)
Sound power-LW(A) (dB(A))	N/A (Indoor)	

Power¹ (m.p. cos φ 0,8)	PRP (kVA / kW)	40 / 32
	ESP (kVA / kW)	44 / 36

¹PRP: Continuous power ("Prime Power"). ESP: Emergency Standby Power according to ISO8528-1.
Maximum active power tolerance (kW) ±5%

Voltage	PRP (KVA/KW)	ESP (KVA/KW)	Amperage (A)
400/230V	40 / 32	44 / 36	64

Directives and Regulations

ENVIRONMENTAL CONDITIONS STANDARD ISO 8528-1:2018: 25°C, 100kPa and 30% relative humidity:

- **Prime Power (PRP):** Data on electrical power available at variable load without limit of hours per year. An overload of 10% is allowed for 1h out of 12. According to ISO 8528-1:2018.
- **Emergency Standby Power (ESP):** Data on electrical capacity available at variable load in case of emergency according to ISO 8528-1:2018.

The DAGARTECH Generating Set has EC labelling which includes the following directives:

- **2006/42/EC.** Machine Safety Directive.
- **EN ISO 8528-13:2016. Part 13: Safety.** Alternating current generator sets powered by reciprocating internal combustion engines.
- **2014/30/EU. Electromagnetic Compatibility Directive.**
- **2000/14/EC. Noise Emissions Directive.** Sound power levels evaluated in accordance with the procedure laid down in the directive.
- **Directive 2011/65/EU** on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2).

2. Engine specifications

2.1. General technical data of the engine	Make and model	PERKINS 1103A-33TG1		
	r.p.m.	1500		
	Maximum ESP power (kWm)	45,6		
	Power PRP (kWm)	41,3		
	Fuel	Diesel		
	No. of cylinders	3 cylinders		
	Cylinder capacity (c.c.)	3300		
	Compression ratio	17,25:1		
	Cooling system	Water-cooled		
	Type of regulation	mechanical		
Type of engine/injection/suction	Diesel/direct/turbocharged			
2.2. Fuel	Type of fuel	Diesel		
	Fuel tank capacity	95		
2.3. Consumption and autonomy	Consumption (l/h)		Autonomy (h)	
	PRP	ESP	PRP	ESP
	50%	5,7	-	16,7

	Start-up voltage (V)	12V		
2.8. Exhaust system	Exhaust gas flow (m ³ /min)	7 [PRP]	7,7 [ESP]	
	Exhaust gas temperature (°C)	492° [PRP]	537° [ESP]	
	Exhaust outside diameter (mm)	2,5" - Ø63mm		
	Max. exhaust back pressure (kPa)	10		

- **3 cylinders 4-stroke diesel engine online** with mechanical regulation mechanical by means of a fuel pump, original from the manufacturer.

Emissions compliance
EU Stage 0

- **Direct injection and suction system turbocharged.** Original manufacturer's particle separator filter.

- **Refrigeration through cooling liquid,** fully distributed in the closed circuit run by an engine driven pump, tropicalised radiator, original from the engine manufacturer.

- **Crankshaft-driven pump lubrication system.** The filter is a full-flow insert cartridge, front housing, original from the engine manufacturer.

- **Air intake system for turbo-fed combustion** with two-stage filter, original from the engine manufacturer.

- **Electric motor starting system, battery** (no maintenance) **with disconnecter and load alternator driven by the starter** 12V, original elements from the engine manufacturer.

Exhaust attenuation level
-10dB(A)

3. Alternator specifications

3.1. General technical data for the alternator	Make and model		STAMFORD S1L2-K				
	No. of poles		4				
	Insulation class		H				
	No. of threads		12				
	Mechanical protection index		IP23				
	Voltage Regulator (AVR)		AS540				
	Voltage regulation		±1%				
	ESP power 27°C (kVA)		44				
	Power PRP 40°C (kVA)		40				
	No. of phases		3				
	Power factor (cos φ)		0,8				
Performance η (%)							
50%		75%		100%		110%	
90,7%		89,9%		87,8%		86,6%	

- **Brushless 4-pole alternator.** Robust mechanical structure with easy access to connections and components. Insulation class H, coil pitch 2/3 and self-excited AVR.
- **Protection with premium epoxy resins.** High voltage parts are impregnated under vacuum, which always means very good insulation.

Standard regulations that the alternator fulfils:

AS 1359 | IEC 34-1 1 | BS EN 60034-1 | VDE 0530 | BS 5000 | CAN/CSA-C22.2-100 | NEMA MG1-32.

Low wave distortion:

- THD (100% load) = 2%
- THF < 2%

Complies with: EN61000-6-3, EN61000-6-2 regarding radio interference.

4. Frame Specifications

- Unit mounted on **electro-welded high-resistance steel frame**, painted with epoxy-polyester powder paint.
- Connection of the assembly to the frame by means of **anti-vibration dampers**.
- **Fuel tank located on the frame itself.** The engine is equipped with a measuring gauge and fuel system.
- **Tested in a saline mist chamber according to ASTM B-117-09, resistance 500h.**

Do you need an open or soundproofed generator?

The choice between an open or soundproofed unit will depend mainly on the location where it is to be installed and the permissible noise conditions at the site. So, if the equipment is going to be outdoors, or if noise pollution rates are a critical factor in your project, the obvious decision will be to opt for a soundproofed group.

Our canopies are tested in a salt spray chamber according to standard ASTM B-117-09 (resistance 720H. IP44 mechanical protection grade).

Not sure if you need a soundproofed generator set for your installation?

Get in contact with us and we will advise you.

6. Control panel

6.1. Main elements of the control panel

- Protection panel, distribution with **automatic control module** which allows you to work in manual, automatic or signal mode.
- **Emergency stop button.**
- **Deep Sea Electronics battery charger**, designed to be permanently connected to the battery and maintain 100% of the charge. The charger switches to float mode when charging is complete:

Model DSE 9150 12V, 3A

- **Protections:**
 - **4-pole magnetothermic protection** against overloads and short circuits.
 - **Protection fuses** for the control set.

6.2. Protection switch

Model Chint 63A 4P

6.3. Control module

Model DSE 6020 MKII

- 1 Alarm indicator
- 2 Transfer to the generator (manual mode)
- 3 **Start engine (manual mode)**
- 4 Silence alarm
- 5 Automatic mode
- 6 Test mode
- 7 Manual mode
- 8 **Genset stop**
- 9 Main network transfer (manual mode)
- 10 Navigation keyboard
- 11 Main status and instrument display

DSE 6020 MKII DEEP SEA control card, with mains grid monitor. The genset will automatically start up when detecting a fault in the electric power network and it will turn off automatically as well, when the electrical supply is re-established.

It can also work in manual mode and by signal. It allows you to monitor a wide range of generator parameters and display information alerts, status and alarms.

The module includes USB communication ports, 4 configurable digital inputs, 3 analog inputs, 6 configurable outputs, emergency stop button, 8-35 V battery charger.

It has 132x64p illuminated LCD display with 4 lines of text, 5-key navigation through menus, programmable clocks and alarms, reading and displaying parameter values, including RMS values.

The entire module is easily configurable via PC using the DSE specific software configuration. Different operating modes: AUTOMATIC mode, MANUAL mode, SIGNAL mode and TEST mode.

Other alternative configurations are available upon request to extend the capabilities of the operation modes.

Environmental Tests that the module complies with:

- | BS EN 61000-6-2 (electromagnetic compatibility)
- | BS EN 61000-6-4 (electromagnetic compatibility)
- | BS EN 60950 (electrical safety) | BS EN 61000-6-2 (temperature) | BS EN 60068-2-6 (vibrations)
- | BS EN 60068-2-27 (shock)

7. Standard Scope of Delivery

Engine

- **PERKINS 1103A-33TG1 Diesel Engine**, 1500 rpm water cooled.
- With **mechanical regulation**.
- **Protection from hot parts**.
- Electric motor starting system, **battery (maintenance-free) with switch** and load alternator driven by **starter motor of 12V**.
- **Industrial exhaust silencer of -10dB(A)**.

Alternator

- **12-Wire, 4-pole brushless STAMFORD S1L2-K alternator** with electronic voltage regulation type AVR (AS540).
- With IP23 protection level.
- **Insulation class H**.

Bench

- **Electro-welded bench** of high-strength steel.
- Painted with electrostatic epoxy-polyester powder paint.
- **Anti-vibration dampers** from the engine block to the bench.
- **Fuel tank with capacity of 95 litres**, located on the bedplate itself. Equipped with **cleaning record** (models > 75kVA) to facilitate maintenance work.
- **With measuring gauge** and installation of fuel to the engine.
- **Liquid drainage connection** to the outside (models > 75kVA).
- **Tested in a salt spray chamber according to ASTM B-117-09 (500h resistance)**.

Control panel

- **DeepSea Electronics automatic control module DSE 6020 MKII** which allows you to work in manual, automatic or signal mode.
 - It offers multiple event logging and is fully configurable through DeepSea Electronics' free-access specific configuration software.
 - Three-phase network and group detection with measurement for configurations upon network failure.
- DeepSea Electronics battery charger **DSE 9150 12V, 3A**. Designed to be permanently connected to the battery and maintain 100% of the charge. The charger switches to float mode when charging is complete.
- **Protections:**
 - 4-pole magnetothermic protection against overloads and short circuits.
 - Protection fuses for the control set.

Other equipment

- **Emergency stop button**.
- **Reinforced pole** centrally-mounted (units > 75kVA).

Images for orientation purposes. Dagartech reserves the right to modify the data in this technical sheet without prior notice.

*CHECK THE SPECIFICATION ACCORDING TO THE MODEL.

8. Featured options available

Do you need to include some options to the standard equipment of this generator set to make it the perfect genset for you? We offer you three complete Kits with which to customize your Balance generator set quickly and easily.

KIT 1: Network failure

Adding an engine heater to your equipment will ensure that your generator set starts without problems in the event of any failure in the electrical network, and without the cold or humidity becoming a problem.

KIT 2: Lecturas y alarma¹

Your generator set can provide you with very useful information before any breakdown, maintenance work or, simply, during its operation.

If this is an important aspect for you, do not hesitate to include this Kit in your equipment, which has:

- **Radiator level alarm sensor.**
- **Oil pressure reading sensor.**
- **Temperature reading sensor.**

THE READINGS AND ALARM KIT IS INCLUDED IN THE SCOPE STANDARD SUPPLY OF EQUIPMENT STARTING AT 275KVA POWER.

KIT 3: Exhaust installation

If you need a versatile solution for the evacuation of gases from your installation to the outside, choose this kit, equipped with 2 clamps and 3 meters of galvanized steel hose.

KIT 4: CE

If your generator is going to be installed in unregulated markets, we offer you this kit as an option. Includes protection of hot parts (hot plates).

Included in the standard scope of supply for European markets.

¹ Radiator level sensor not available for Baudouin 4M06 series engines.

Check the availability of these options according to the model and, if you do not find what you are looking for, please contact us. We have many more options to offer you.

9. Even more options

If you're looking for other features to complete your machine, don't worry.

Below we detail many of the options from the Balance range that we make available to you to turn your unit into a unique machine.

24 hour tank

AUTONOMY OPTIONS

Increase the autonomy of your generator up to 48 hours, including special tanks

You can choose between **different integrated tanks to increase the autonomy of the unit up to 48 hours** of operation.

You can also incorporate automatic fuel transfer systems for supply from external tanks.

% load	Consumption (l/h)		Capacity (l): 24h tank - 366 l		48h tank - 665 l	
	PRP	ESP	Autonomy (h)		Autonomy (h)	
50%	5,7	-	PRP	ESP	PRP	ESP
75%	8,2	-	64,2	-	116,7	-
100%	10,7	12	44,5	-	80,8	-
			34,2	30,5	62,1	55,4

Fuel particle separator filter

ENGINE - ALTERNATOR OPTIONS

- Electronic engine regulation/management (for models with mechanical regulation)
- Fuel particle separator filter.
- Manual oil drainage pump.
- 6-way fuel valve kit.
- Alternator anti-condensation resistors.
- Alternator superior impregnation systems.
- AVR MX341 + PMG ± 1% STAMFORD.
- AVR MX321 + PMG ± 0.5% STAMFORD.

Images for orientation purposes. DagarTech reserves the right to modify the data in this technical sheet without prior notice.

9. Even more options

Central lifting point

MECHANICAL OPTIONS

- Retention tray (see change of dimensions).
- Liquid leakage probe (requires retention tray).
- SilentBlocks for levelling.
- Damping - anti-vibration springs.
- Lifting point (in models < 85kVA).

DSE 2157

DSE 334 network surveillance

COMMUNICATION OPTIONS

- Supplement to the DSE 7320 MKII control board (for models with the DSE 6020 MKII control board in the standard scope of supply).
- DSE 2157 8 potential free output (requires DSE 7320MKII).
- DSE 2130 8 inputs (requires DSE 7320MKII).
- DSE 2548 8 LED diodes (requires DSE 7320MKII).
- DSE 855.
- DSE 890 webnet.
- DSE 7420 module.
- DSE 334 network surveillance.

Socomec motorised switchboard

POWER OPTIONS

- Supplement to the Schneider circuit breaker.
- Differential protection.
- As an option, you can include a switch cabinet attached to the generating set.
 - Switching with Schneider contactors. 25 to 125 A.
 - Socomec motorised switches: $\geq 125A$.

Images for orientation purposes. Dagaritech reserves the right to modify the data in this technical sheet without prior notice.

CHECK THE AVAILABILITY OF THESE OPTIONS DEPENDING ON THE MODEL
